Clinical Endocrinology (1996) 45, 793–796

Subject index to Volume 45

Acromegaly
and thyroid carcinoma (Letter), 244
long-term surgical results 291
sleep apnoea in treated 563
Adrenal insufficiency
and AIDS 97
renin activity and mineralocorticoid therapy 529
Adrenal tumour
and 21-hydroxylase deficiency (Letter) 369
Adrenalectomy
laparoscopic (Short review) 141
laparoscopic for 11β-hydroxylase deficiency (Case report) 225, (Commentary) 228
Adrenocortical function
and birth size 721
adenoma, oestrogen producing (Case report) 643
AIDS
and adrenal insufficiency 97
Aldosteronism
primary, diagnosis (Endocrine investigation) 47, 53
during angiotensin III and K infusion (Letter) 243
Amiodarone
thyroiditis (Case report) 365
Androgen receptor gene mutations 733
Apnoea
in treated acromegaly 563
AME
IIβ-HSD assessment 605, (Commentary) 613

Bone
metabolism and density and GH in GHD 27
mineral density, effect of progestogens and oestrogen (Letter) 123
metabolism in CAH 535
adult BMD and GH (Review) 665
BMD, glucocorticoid substitution in 21-OHase deficiency 707
Buserelin
octreotide and GH in PCOS 595

CAH
genetics of 21-hydroxylase deficiency (Case report) 103
adrenalectomy (Case report) 225, (Commentary) 228
bone metabolism 535
Calcium homeostasis
(Review) 1
Ca-sensing receptors
mutations in hypercalcaemia 675
Carbimazole
dosage for hyperthyroidism 511
Cardiomyopathy
and Graves' disease (Case report) 111
Cardiovascular effects
of GH in GHD 305
Children
GnRHa effects in precocious puberty in girls 7
IFG-II levels in IDDM 13
malnourished, I deficiency effect on IGF-I, IGFBP-3 and height 79
insulin and IGF-I in diabetes 321
GH secretion in GHD adolescents 553
adrenocortical function and birth size 721
Congenital insulin resistance
leprechaunism, IGF receptor, genetics (Case report) 229, (Commentary) 237
Critical illness
pituitary response to GHRH, GHRP-2 and TRH 341
Cushing's disease/syndrome
petrosal sinus sampling 147, 157
exophthalmus 167
IIβ-HSD assessment 605, (Commentary) 613
psychology 715
and ectopic ACTH from ovarian carcinoma (Case report) 775
Cytokine
expression in pituitary adenomas 179

Diabetes
IDDM and IGF-II levels 13
insulin and IFG-I in children 321
ovarian function in NIDDM 615
HLA haplotype and thyroid autoimmunity in NIDDM 631
hypoparathyroidism and NIDDM in Kearns-Sayre with mitochondrial DNA deletion (Case report) 637

Ethnicity
IGFBP-3 and IGF-II 327

Fenfluramine
effect on ACTH and cortisol secretion 39

Genetics
vitamin D resistant rickets 85
p16 tumour suppressor gene in phaeochromocytoma 93

© 1996 Blackwell Science Ltd

of 21-hydroxylase deficiency and CAH (Case report) 103
MEN-1 and prolactinoma in identical twins (Case report) 117
molecular biology (Clinical Molecular Endocrinology) 125
FSH-β subunit gene expression with transcription factor in pituitary adenoma 187
loss of heterozygosity in tumours 195
insulin receptor gene: leprechaunism and IGF receptor (Case report) 229, (Commentary) 237
Pit-1 gene expression 263
mineralo and gluco-corticoid receptors (Clinical Molecular Endocrinology) 651
gonadotrophins and receptors (Clinical Molecular Endocrinology) 657
Ca-sensing receptor mutations 675
androgen receptor gene mutations 733
HLA haplotype and thyroid autoimmunity in NIDDM 631
mitochondrial DNA deletion, hypoparathyroidism, NIDDM and Kearns-Sayre syndrome (Case report) 637

GH
cardiovascular effects in GHD 305
i.v. *vs* s.c. in GHD 333
GHRH, hexarelin and GH reserve 543
assessment in men 557
and adult BMD (Review) 665
and body composition in GHD 681, (Rapid communication) 769

GH insensitivity
(Endocrine investigation) 257

GH receptors
and PRL (Clinical Molecular Endocrinology) 247

GHD
and MRI 21
bone metabolism and density and GH 27
GH, HC and cortisol levels 33
GH and cardiovascular effects 305
i.v. *vs* s.c. GH 333
GH reserve test (GHRH + hexarelin) 543
GH secretion in adolescents 553
GH and body composition 681

Glucocorticoid receptors
and mineralocortiocoid receptors (Clinical Molecular Endocrinology) 651

Gonadotrophins
genetic defects affecting (Clinical Molecular Endocrinology) 657

Gonadotrophin receptors
genetic defects affecting (Clinical Molecular Endocrinology) 657

Graves' disease/syndrome
and cardiomyopathy (Case report) 111
hypoechogenicity after methimazole withdrawal and recurrence 201

Hexarelin
and GHRH; GH reserve test 543

Hilus cell hyperplasia
leuprolide suppression of androgen (Case report) 239

Hydroxylase deficiency
phenotypic evolution and genetics (Case report) 103
laparoscopic adrenalectomy (Case report) 225
and adrenal tumour (Letter) 369
BMD and glucocorticoid substitution 707

11β-Hydroxysteroid dehydrogenase
assessment 605, (Commentary) 613

Hypercalcaemia
Ca-sensing mutations 675

Hyperparathyroidism
^{99m}Tc-sestamibi scintigraphy (Letters) 121, 122

Hyperprolactinaemia
long-term follow-up 299

Hyperthyroidism
carbimazole dosage 511
women, overweight, glucose and insulin effects 689

Hypoadrenalism
secondary, diagnosis (Letter) 122

Hypogonadism
subcutaneous testosterone implants 61
hyperprolactinaemia and verapamil 571

Hypopituitarism
metabolism 171

Hypothyroidism
following IFN-α therapy 207
immunological and chemical types 519
IDDM, Kearns-Sayre syndrome and mitochondrial DNA deletion (Case report) 637

IGF
IGFBP-3 and ethnicity 327
IGFBP and oestrogen replacement 727

IGFBP
IGF-II and ethnicity 327
IGF and oestrogen replacement 727

Intrauterine growth retardation
GH, IGF-I and IGFBPs 315

Iodine
deficiency, IGF-I, IGFBP-3 and height in malnourished children 79
IVF
inhibins and activin 741

Kearns-Sayre syndrome
NIDDM, hypoparathyroidism and mitochondrial DNA deletion (Case report) 637
Klinefelter's syndrome
melatonin secretion 749

Langerhans' cell
histiocytosis and thyroid (Case report) 357
Laparoscopic adrenalectomy
141, (Case report) 225, (Commentary) 228
Leprechaunism
insulin receptor gene mutation and IFG receptor (Case report) 229, (Commentary) 237

Melatonin
secretion by pineal lesion, effects (Case report) 353
secretion in Klinefelter's syndrome 749
Men
subcutaneous testosterone implants in hypogonadism 61
testosterone replacement therapy (Commentary) 261
GH assessment 557
hypogonadic; hyperprolactinaemia and verapamil 571
MEN
type 1 in identical twins and prolactinoma (Case report) 117
Metabolism (also see Bone)
in hypopituitarism 171
GH and body composition in GHD (Rapid communication) 769
Mineralocorticoid receptors
and glucocorticoid receptor (Clinical Molecular Endocrinology) 651
Molecular biology
(Clinical Molecular Endocrinology) 125
MRI
and GHD 21
of pituitary gland 273
of pituitary stalk 281

Naloxone
effect on h-p-a axis in PCOS 73

Obesity
hyperthyroid women, glucose and insulin effects 689
stimulation of cortisol and DHEA by food 699
Octreotide
GH and buserelin in PCOS 595
Oestrogen replacement
IGF and IGFBP levels 727
Ovarian carcinoma
ectopic ACTH and Cushing's syndrome (Case report) 775
Ovarian cyst
hilus cell hyperplasia, leuprolide androgen suppression (Case report), 239

PAI-1
activity and blood pressure in PCOS 623
Pancreatitis
Ca-sensing receptor mutations and hypercalcaemia 675
PCOS
effect of naloxone on h-p-a axis 73
octreotide, GH and buserelin 595
blood pressure and PAI-1 activity 623
Phaeochromocytoma
p16 tumour suppressor gene 93
Pineal lesion
effects of increased melatonin secretion (Case report) 353
Pituitary adenomas
cytokine expression 179
FSH-β subunit gene expression with transcription factor 187
loss of heterozygosity 195
Pit-1 gene expression 263
Pituitary disease
stress tests 135, (Letter) 245
MRI of pituitary gland 273
MRI of pituitary stalk 281
imaging using dopamine receptor radioligand 755
PRL
and GH receptors (Clinical Molecular Endocrinology) 247
Plasminogen activation inhibitor
and blood pressure in PCOS 623
Prolactinoma
in identical twins with MEN-1 (Case report) 117
hypophysectomy following dopamine agonist (Letters) 649
Pseudoaldosteronism
and aldosteronism, diagnosis (Endocrine investigation) 53
Psychology/psychiatry
affective disorder with abnormal thyroid function 215
of Cushing's syndrome 715

PTH
and calcium homeostasis (Review) 1
PTHrP
and calcium homeostasis (Review) 1
Puberty
central precocious and GnRHa effect on IGF-I and IGFBP-3 7

Renin activity
in mineralocorticoid replacement in adrenal insufficiency 529
Rickets
vitamin D resistant, genetics 85

Stress tests
in pituitary disease 135, (Letter) 245

^{99m}Tc-sestamibi scintigraphy
in hyperparathyroidism (Letters) 121, 122
Testosterone
implants in hypogonadism 61
replacement therapy (Commentary) 261
Thyroid function
and affective disorder 215
and malignant histiocytosis of Langerhans' cells (Case report) 357
amiodarone-induced thyroiditis (Case report) 365
autoimmunity and HLA haplotype in NIDDM 631

Turner's syndrome
undiagnosed morbidity 589

Verapamil
hyperprolactinaemia in hypogonadism 571
Vitamin D
and calcium homeostasis (Review) 1

Women
effect of naloxone on h-p-a axis in PCOS 73
leuprolide suppression of androgen secretion by hilus cell (Case report) 239
long-term results of hyperprolactinaemia 299
intrauterine growth retardation 315
effects of melatonin secretion from pineal lesion (Case report) 353
hyperthyroid, overweight, glucose and insulin effects 689
oestrogen replacement, IGF and IGFBP levels 727
inhibins and activin in IVF 741
